Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

As person on social security disability, I am on a very limited income, therefore that is why we are using the tracphone system. My wife carries the phone so that she can be reached in case of an emergency with me. I am homebound and unable to leave my home except for doctor visits. Please don't raise our budget. As you know my social security check cost of living raise is not even going to cover the raise in my medicare payment, please think twice.
